

# Command Attention. Maximize Engagement. Transform Any Space.

How you show up matters.

Whether you're energizing a corporate event, directing trade show traffic or showcasing real-time content, your signage shouldn't be an afterthought. JPL's dynamic LED display solution is designed to turn heads and drive action.

## **Bold, Brilliant Visuals**

Ditch the dated projection screens and static posters. Deliver crisp, high-resolution content that stands out in any lighting because your audience deserves more than "good enough."

## **Seamless Setup, Incremental Impact**

Each 76"x25" LED poster includes an integrated playback system for video, slideshows or static images. No extra tech required. They fold for easy transport and double as a two-sided sandwich board. Setup is a breeze, even in fast-turn environments.

## **Scalable and Flexible**

Need more screen real estate? Link up to 6 posters for a seamless, 12.5-foot-wide digital canvas—perfect for immersive visuals or multi-message storytelling.

## **Smart Content, Real-Time Control**

With intuitive content management tools, you can update on the fly or schedule updates in advance. Ideal for:

- Rotating agendas and real-time session updates
- Social media integrations and gamified leaderboards
- Live announcements or recognition moments
- Custom scenic elements and digital décor

## **Save Space. Elevate Experience.**

Our 6-poster display replaces traditional 10' x 6' projection systems with a sleeker, energy-efficient solution. That means:

- Smaller tech footprint
- More room for your audience
- Better image quality, even up close

## **Bring Big Energy to Any Environment**

**From brand activations to internal meetings, these displays create a polished, professional experience your audiences will remember.**

## **PERFECT FOR:**

Trade shows  
and exhibitions

Corporate  
events and  
announcements

Corporate lobbies  
and conference  
centers

Wayfinding and  
event check-in

Immersive,  
on-brand  
scenic builds

**READY TO MAKE YOUR  
NEXT EVENT UNMISSABLE?**
