Studio guide

Rent our production facilities

Your vision, our space

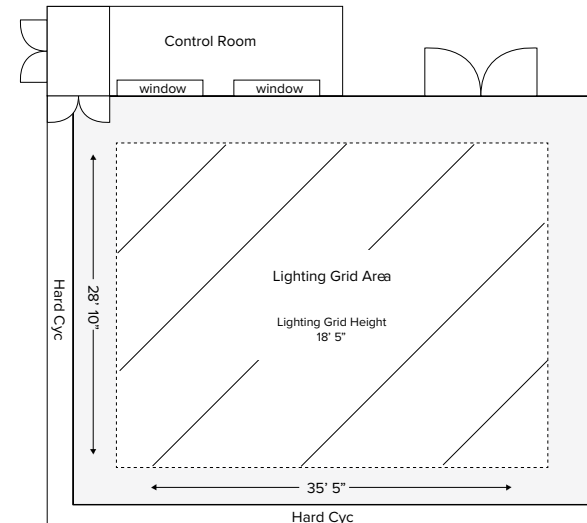

Start to finish, every space you need is here—all at your command. Plus, take advantage of Pennsylvania film tax credits at Central PA's only qualified post-production facility.

Each studio offers easy load-in through large double doors with ground-level entry and loading docks for vans and trucks. Our fully wired studios support 3-camera switched shoots from a control room featuring Blackmagic ATEM switching, video/still playback, digital recording and audio mixing. Your talent stays comfortable with guest WiFi, craft services space, green room and makeup/dressing room.

Studio 1

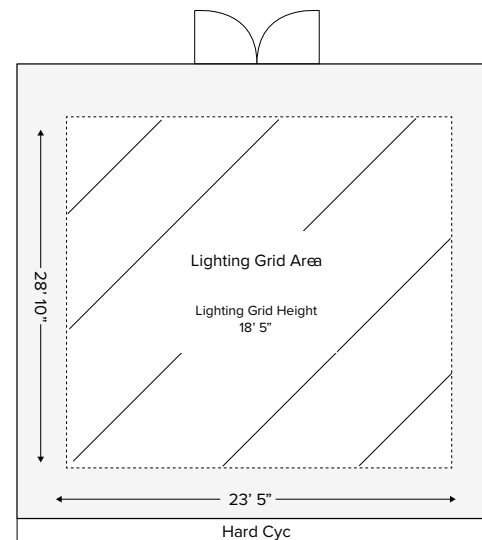

- 1285 square feet
- Light grid height of 18.5 feet
